

Lockdown 2020

(to be read at the first South Ruislip Fairway Guild's monthly meeting after lockdown)

When we were very very young
We lived through World War Two
But now in Twenty Twenty
There was another world todo

Because of the Covid virus
We were asked to stay at home
Unfortunately for some of us
It was 'home alone'

Covid 19, the name by which it's known
Began in far off China
'though China is so far from home
It soon came so much closer

Some people they did panic buy
And left the shops quite empty
But now the shelves are full again
So, we have food aplenty

I've never had a house so clean
And took my time each day
Surprised myself I was so keen
It looks really good I'd say

The garden needed help you know
Now not a weed in sight
And if they should perchance to grow
I made sure they died of fright

I went to Sainsburys once a week
And round the park each day
Not the pleasures I normally seek
But it was the only way

Assuming Christmas will come this year
I've made my cards already
At least it kept my little mind
Quite relaxed and steady

It's September (???) now
And we meet again
Can use our pass
For bus or train

Hurrah!
