

A Message of Hope from the Suffragists of Yesteryear

Christmas-time and Politics

Do not go hand in hand

Yet this is how it is right now

All across the land

Our problems never were like this

Compared to yours our lives were bliss

We'd like to help you find an Exit

Just to get away from Brexit

So, as you stir your Christmas Pud

Make a wish for something good

Whatever now may be your views

The country matters or we lose

Do not take the vote for granted

The seed of hope fought to be planted

It matters that you play your part

And take this country to your heart

We wish you joy on Christmas Day

No dreadful gifts to come your way

Here's a thought you may find shocking

(Insert name of politician here) _____ in your stocking

So while you still have got a choice

Use your vote and find your voice

Look forward to a bright new year

Now cast your vote

Your chance is here.
